7 Principles for the remuneration of Directors

~~The Company would like to state up front that it intends to extend the current remuneration system, which consists of predominantly fixed remuneration elements, with performance-based remuneration elements (share-based remuneration elements), the development of which is one of the Company's short and medium-term strategic steps.)~~

- 7.1 For the Directors, remuneration consists exclusively of fixed and variable remuneration elements as set out in this Remuneration Policy.
- 7.2 The amount of fixed remuneration for fixed remuneration should be sufficiently high to allow for the reduction of performance-based variable remuneration elements to zero. The Directors should not be dependent on changing remuneration elements, as the Company considers that it may encourage excessive short-term risk-taking, contrary to the Company's consolidation objectives.
- 7.3 OPUS Global Nyrt. links the level of performance-based variable remuneration to the level of achievement of the objectives of the Group and the individual objectives of the Directors.
- 7.4 The level of performance-based variable remuneration is determined on the basis of a collective assessment of objectives, taking into account the economic financial situation of OPUS GLOBAL Nyrt.
- 7.5 For the Directors, especially and with particular emphasis on the CEO and the Deputy CEO, the level of remuneration is determined in consideration with:
- the qualifications, experience requirements and related limiting factors; established for the position in question;
 - salary market information; and
 - roles, responsibilities and powers; and
 - the weight of the position in the organisation and the length of service.

- 7.6 In order to determine the objectives of the Directors, both financial and non-financial criteria should be established for the Directors. In the case of employees of the Company who are Directors, the remuneration policy and the setting of salaries are based on the duties and responsibilities of each senior employee (CEO, Deputy CEO's) as defined in the Articles of Association and the internal rules of responsibility. Wages (the basic wage) are to be set on a market basis and at a level that is appropriate to attract and retain a competitive workforce, taking into account the need to ensure competitiveness. The Company shall review the salaries by the end of April of the year following the year in question and, if it makes any changes thereto, such changes shall take effect from 1 January of the year following the year in question, unless otherwise specified. The changes will be influenced by the salary data of companies of a similar size and capitalisation in the BSE premium category, competitors, the Company's general salary policy, as well as by the expansion or contraction of responsibility levels and the quality of work in the areas of responsibility. In view of the provisions of point 10.4 r) of the Company's Articles of Association, the establishment and termination of the employment of the CEO and the setting of his/her base salary are matters for the Board of Directors of the Company. The rights of employment over the Deputy Chief Executive Officer(s) shall be exercised by the Chief Executive Officer of the Company.
- 7.7 In the case of share-based remuneration schemes, ~~the principles of such schemes~~ and the actual level of remuneration for Directors is approved by the General Meeting, ~~with shareholders being informed in detail of the share-based remuneration schemes prior to the vote.~~
